PRIMED

Performance!

Primax®
“Enhance Your Growth”

The value of seed enhancement is especially evident under adverse growing conditions. Sakata’s proprietary priming technology improves uniformity, speed of germination, and stand establishment under less-favorable environments. It’s another reason to choose Sakata for your value-added seed enhancement needs—right from the start.

Take advantage of our current Primax® promotions! You can purchase Primax® seed of the following varieties at standard seed prices. Call your customer service representative to place your order!

- Watermelon Sweet Treasure (GAP Program)
- Tomato Bella Rosa
- Tomato Linda
- Tomato Red Delight
- Tomato Mariana
- Tomato Monica

3rd Party Enhancement Service

Sakata also offers seed enhancement technology services for non-Sakata seed. Whether the need is our exclusive Primax® solid matrix priming technology for sowing in adverse conditions or Promax™ pelleting for precision sowing, Sakata has the best technology for you! Call Allen at (408) 778-7758 for more information.

Additional Information:

New variety names: Carrot, Fuerte (SCR5114),

Melon, Super Nectar (SME1830),

Melon, Dulce Nectar (XME1680)

Onion, Ringo (XON403Y)

DISCLAIMER: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling as it contains Sakata Seed America, Inc. terms and conditions of sale.
